3) <input type="checkbox"/> Information Disclosure Statement(s) (PTO-1449) Paper No(s) _____ .		6) <input type="checkbox"/> Other: _____ .	

CLAIMS 1-40 ARE PRESENTED FOR EXAMINATION

DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

- I. A composition wherein the agents are octoxyglycerin and a biguanide compound.
- II. A composition wherein the agents are octoxyglycerin and triclosan.
- III. A composition wherein the agents are octoxyglycerin and phenoxyethanol.
- IV. A composition wherein the agents are octoxyglycerin and an iodine compound.
- V. A composition wherein the agents are octoxyglycerin and parachlorometaxylenol..
- VI. . A composition wherein the agents are a quaternary ammonium compound and a biguanide compound.
- VII. A composition wherein the agents are a quaternary ammonium compound and triclosan.
- VIII. A composition wherein the agents are a quaternary ammonium compound and phenoxyethanol.
- IX. A composition wherein the agents are a quaternary ammonium compound and an iodine compound.

X. . A composition wherein the agents are a quaternary ammonium compound and parachlorometaxylenol.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

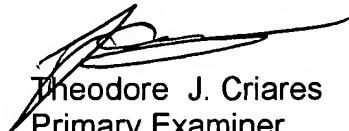

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

No telephone communication was made on this restriction requirement because the restriction is complex. (MPEP 812.01).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Theodore J. Criares whose telephone number is 308-4607. The examiner can normally be reached on 6:30 A.M. to 5:00P.M. Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Theodore J. Criares can be reached on 305-1877. The fax phone numbers for the organization where this application or proceeding is assigned are 703-746-6897 for regular communications and N/A for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 308-1235.
